

Micronet 800
Telemap Ltd
Durrant House
8 Herbal Hill
London EC1R 5EJ

Telephone: 01-278 3143
Telex: 32157

Dear Micro User,

Thank you for your interest in Micronet 800, and welcome to a new era of home computing!

Now you can link your micro to Micronet's giant mainframes and network to over 60,000 users via your modem and telephone, releasing the full potential of your computer.

You'll enjoy Micronet's exciting range of world-class communications facilities – the intriguing 'Chatline' real-time public conversation service, 'Teleshopping' at special offer prices direct from your keyboard, and the popular new Wednesday evening 'Celebrity Chatline' allowing you to interview celebrities live over the system!

You will need a 1200/75 modem and communications software so that your micro can interpret data coming down the phone line. Modems are available for most popular micros from local retailers. If your retailer does not stock a compatible modem, please contact Micronet for full details.

Micronet offers regularly changing free telesoftware libraries for the BBC, Spectrum and Commodore 64 computers. Any micro can access Micronet's full range of information and communications facilities including the Job Search database, our interactive big-prize quizzes and the revolutionary new "Gallery", giving you complete freedom to create and control your own personal Micronet pages. Look out for our monthly "Gallery Awards"!

LOW RUNNING COSTS

Unique amongst networks and bulletin boards, Micronet keeps your phone costs very low, with special local rate calls whenever you 'log on' – that's only 40p (after 6pm and all weekend) for a whole hour's entertainment.

The combined Micronet and Prestel subscription is just £16.50 per quarter* – less than the price of your daily paper! In your first year you'll have access to around 100 FREE programs and you'll save a small fortune in stamps with Micronet's free (and instant) nationwide electronic mail service.

Joining Micronet brings you a wide range of other services including Prestel Microcomputing's Viewfax and Clubspot, School Link and the huge 300,000 page Prestel database. You'll even have the option of controlling your bank account from your micro.

HOW TO SUBSCRIBE AND 'LOG ON'

Send no money! Simply complete the Micronet/Prestel application form, send it **direct to Micronet**, and you'll quickly receive your identity number and private password, along with your quarterly System Directory. Your modem will plug into a new style PST (square) telephone socket: Should you require a new one, or an extension, please contact your local British Telecom office for details.

Micronet 800 is a 'living' database, continually growing, interacting and involving you, whilst dramatically broadening the use of your micro.

You'll find Micronet entertaining, useful and informative – there are thousands of Micronetters waiting to meet you! Should you require any further information, please do not hesitate to contact us on 01-278 3143.

We look forward to seeing you on the system!

Melanie Ruse
Customer Services Manager

*Connect time is **free**, except 8am–6pm weekdays and 8am–1pm Saturdays when the charge is 6p per minute. Business subscriptions are now £28.00 per quarter. Local calls are for 98% of telephone users.

Micronet 800 is the trading style of Telemap Ltd
An EMAP/BT/Tele-Direct (Canada) Company.
Prestel and the Prestel symbol are trade marks
of British Telecommunications.
