

TELETEXT ON YOUR PC

WITH THE TELEDATA 400 CARD

The Teledata 400 is an internal PC Teletext adaptor card.

Instant access to:

- * STOCK AND SHARE PRICES
- * WORLD MONEY MARKETS
- * FOOD MARKETS
- * TRAVEL AND NEWS

It's advanced automatic digital tuning, combined with the latest teletext processors gives you rapid access to a large range of CEEFAX and ORACLE pages. Our menu driven software package - compatible with monochrome or colour adaptors - gives direct keyboard control and comes complete with it's own database and page editor.

Compatible with a large range of PCs: Olivetti, Sperry, Amstrad PC1512, Compaq, Walters, Wyse, Sanyo, Apricot XEN, Epson and IBM PC, XT, AT.

A technical reference guide and software language library is available to let the Teledata 400 communicate with your own software. You can even use BASIC.

Increase the power of your PC, get the information you want fast, and easily.

£269 + V.A.T.

Including driver software
and documentation.

METROTEL

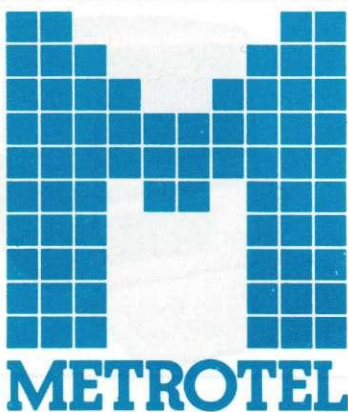

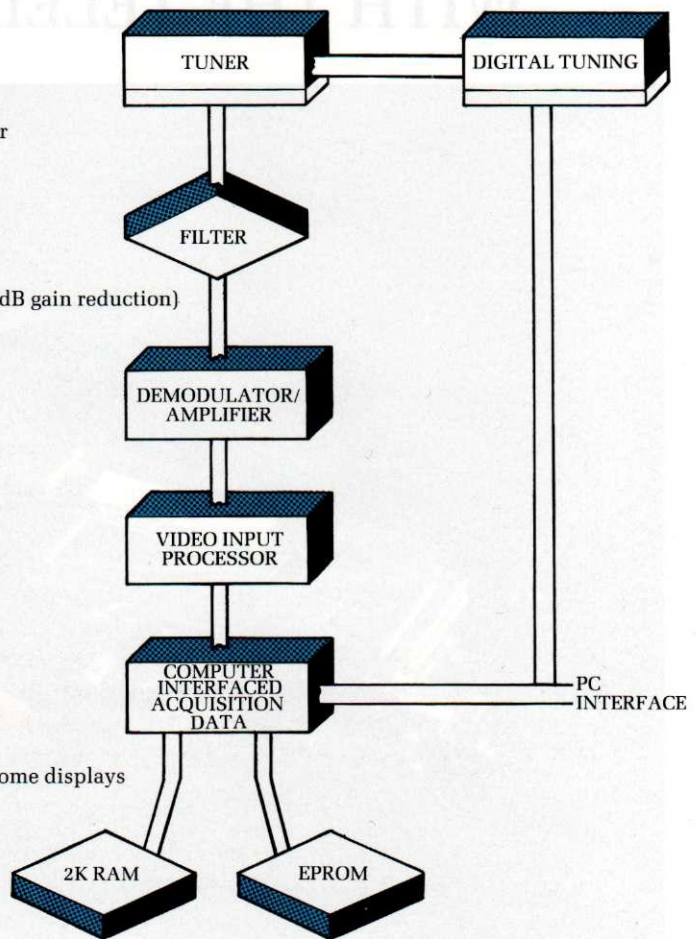

SPECIFICATION

HARDWARE
